# Part-Time Faculty Salary Comparisons in the California Community Colleges 2021-22

#### **Table of Contents**

#### **OBJECTIVE AND METHODOLOGY**

The CFT wants to determine the comparative salary of part-time (PT) faculty in all 72 community college districts in California. We do this by analyzing the salary schedules and comparing pay rates in five separate areas. Rates are shown with and without office hour differential. This study examined salary schedules in effect as of August 2022.

#### **ASSUMPTIONS**

- Part-time = 9 units per semester (although a part-timer can teach up to 67% or 10.5 hours)
- Unless otherwise noted by district: 17 ½ weeks per semester
- 17 ½ weeks x 9 units = 157.50 hours a semester for part-time faculty
- For those schedules where part-time faculty move steps according to a specified number of units, the assumption was that they carried a 9 unit/hour load each semester.
- Full-time loads were counted as 15 units a semester
- Full-time hours were considered to be 40 hours (30 hours class and prep, 5 office hours, 5 governance and committees)
- Full-time faculty were assumed to receive 75% of their annual salary for prep & grading only (no office hours, no governance work)
- 35 weeks x 15 units (hours) = 525 hours annually
- Convert full-time salary from annual to hourly using the formula: (Full-time annual salary x .75)/525

<sup>\*</sup>Basic Aid District: A district that does not receive State General Apportionment because its revenues from local property taxes provide more than it would receive under state formulas. The district still receives EPA and special funding such as Full-Time Faculty Hiring. Basic Aid Districts may also be referred to as community-funded or community-supported Districts.
