Part-Time Faculty Salary Comparisons in the California Community Colleges 2018-19

Table of Contents

OBJECTIVE AND METHODOLOGY

The CFT wants to determine the comparative salary of part-time faculty in all 72 community college districts in California. We do this by analyzing the salary schedules and comparing pay rates in four separate areas. This study examined salary schedules in effect for 2018-2019. Rates are shown with and without office hour differential.

ASSUMPTIONS

Part-time = 9 units per semester (although a part-timer can teach up to 67% or 10.5 hours)
Unless otherwise noted by district: 17 ½ weeks per semester
17 ½ weeks x 9 units = 157.50 hours a semester for part-time faculty
For those schedules where part-time faculty move steps according to a specified number of units, the assumption was that they carried a 9 unit/hour load each semester.
Full-time loads were counted as 15 units a semester
Full-time hours were considered to be 40 hours (30 hours class and prep, 5 office hours, 5 governance and committees)
Full-time faculty were assumed to receive 75% of their annual salary for prep & grading only (no office hours, no governance work) 30 hours/40 hours = .75
35 weeks x 15 units (hours) = 525 hours annually
To convert full-time annual salary to hourly the formula used was: (Full-time annual salary x .75)/525
